

PRESENTS

A Community-Based, Operations-Based Exercise

Are you looking for an opportunity to meet your Centers for Medicare and Medicaid Services (CMS) exercise requirement?

Join All Clear Emergency Management Group for a healthcare-specific, community, operations-based exercise to help meet the exercise requirements within the CMS emergency preparedness rule. All Clear Emergency Management Group will provide an introduction to exercise design and conduct a scenario-based interactive exercise that features operational tasks. This exercise is focused on assisting Skilled Nursing, Ambulatory Surgical Centers, Continuing Care Retirement Communities, Rural Hospitals, Dialysis Centers, Adult Care Homes, and Home Health and Hospice Care Service Providers with *meeting one of their two CMS exercise requirements.*

Date: November 15, 2019

Time: 9:00 AM – 1:00 PM

Location: Edwin W. Monroe
Conference Center – 2000
Venture Tower Drive,
Greenville, NC

Exercise Objectives

1. Determine what mitigation/preparedness activities are in place to prepare for severe weather in the community.
2. Discuss and exercise communication and coordination methods (internal and external) to ensure continuity of patient care during severe weather.
3. Discuss strategies and identify available resources to ensure continuity of patient care existing and incoming patients during severe weather.

Exercise Take-Aways

- 'Introduction to Exercise Design' seminar.
- Practical tips on exercise design for healthcare agencies.
- Exercise documents and templates.
- A Community-based, operations-based exercise.
- Comprehensive After-Action Report (AAR) listing your agency's name.
