- Ask about SARtopo Advanced

NorthEast Exercise & Training has designed a Basic curriculum to give students the hands on experience needed to complete effective maps for Search & Rescue. SARtopo is an online program that allows SAR professionals access to produce interactive maps that are used in effective Searches throughout NC. SARtopo allows users to efficiently switch between base maps and provide overlays to better plan and manage searches.

NEX can provide all of the required planning and logistics for your next SARtopo class. If you have interest in sponsoring a SARtopo course in your area please contact us.
